

SY19E ELECTRIC MINI EXCAVATOR

ALL YOU NEED FOR NO EXTRA CHARGE

As well as **zero emissions** and considerably **lower noise** levels, the **compact electric SY19E** is equipped with a **lithium iron phosphate** (cobalt free) **battery** which allows for faster, safer and more efficient charging as well as a **significantly longer battery life** to reduce total cost of ownership.

Featuring a **single automotive standard charging socket**, the machine offers a fully flexible charging solution that includes a **fast charge option** of 1.5 hours, without the need to purchase any additional equipment.

CHARGE ANYWHERE

Fully flexible automotive charging solution. **No Extra Charge**

CHARGE FASTER

Fast charge option. **No Extra Charge**

WORK LONGER

Long life battery up to 3,500 full charge cycles. **No Extra Charge**

GOT YOU COVERED

Industry leading 5-year warranty. **No Extra Charge**

Key Specification

Battery	LFP Lithium Iron Phosphate - (Cobalt free)
Rated Voltage	268.8 V
Operating Weight	1,950 kg
Max. Power	15 Kw (10 Kw of continuous output) / 2,000 rpm
Max. Bucket Capacity	0.04 m ³
Max. Dig Depth	2,360 mm
Max. Oil Flow	72 l/min
Max. Speed	3.6 km
